

Select Control Module

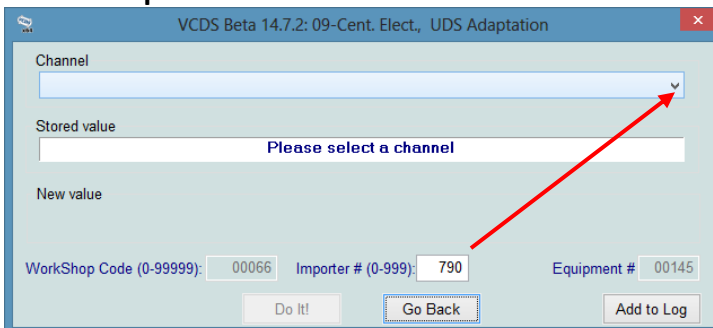

Select 09-Cent. Elect.

Select Security Access – 16, Enter 31347 on next screen as shown

Select Adaptation - 10

Use the channel pull down for the next steps

Make these changes at your own risk

Assure that each of the following is changed to 'active' by selecting new value, then hit 'Do It'

For comfort opening:

The screenshot shows the VCDS Beta 14.7.2: 09-Cent. Elect., UDS Adaptation window. The Channel dropdown is set to '(2)-Access control 2-Comfort opening'. The Stored value field displays 'active'. The New value dropdown is currently empty. At the bottom, the Workshop Code (0-99999) is 00066, the Importer # (0-999) is 790, and the Equipment # is 00145. There are three buttons: 'Do It!', 'Go Back', and 'Add to Log'.

For comfort closing:

The screenshot shows the VCDS Beta 14.7.2: 09-Cent. Elect., UDS Adaptation window. The Channel dropdown is set to '(3)-Access control 2-Comfort closing'. The Stored value field displays 'active'. The New value dropdown is currently empty. At the bottom, the Workshop Code (0-99999) is 00066, the Importer # (0-999) is 790, and the Equipment # is 00145. There are three buttons: 'Do It!', 'Go Back', and 'Add to Log'.

Enable Keyfob comfort open:

The screenshot shows the VCDS Beta 14.7.2: 09-Cent. Elect., UDS Adaptation window. The Channel dropdown is set to '(7)-Access control 2-Funk Komfort oeffnen'. The Stored value field displays 'active'. The New value dropdown is currently empty. At the bottom, the Workshop Code (0-99999) is 00066, the Importer # (0-999) is 790, and the Equipment # is 00145. There are three buttons: 'Do It!', 'Go Back', and 'Add to Log'.

Enable Keyfob comfort close:

The screenshot shows the VCDS Beta 14.7.2: 09-Cent. Elect., UDS Adaptation window. The Channel dropdown is set to '(6)-Access control 2-Funk Komfort schliessen'. The Stored value field displays 'active'. The New value dropdown is currently empty. At the bottom, the Workshop Code (0-99999) is 00066, the Importer # (0-999) is 790, and the Equipment # is 00145. There are three buttons: 'Do It!', 'Go Back', and 'Add to Log'.

Enable the Menu in the MFD as adjustable (so you can turn the feature on or off):

VCDS Beta 14.7.2: 09-Cent. Elect., UDS Adaptation

Channel: (27)-Access control 2-Menuesteuerung Komfortbedienung einstellbar

Stored value: adjustable

New value:

WorkShop Code (0-99999): 00066 Importer # (0-999): 790 Equipment # 00145

Do It! Go Back Add to Log

I did also active KESSY to allow closure too:

VCDS Beta 14.7.2: 09-Cent. Elect., UDS Adaptation

Channel: (20)-Access control 2-Kessy Komfort schliessen

Stored value: Yes

New value:

WorkShop Code (0-99999): 00066 Importer # (0-999): 790 Equipment # 00145

Do It! Go Back Add to Log

And these are the wildcards. I do not know if these were necessary, but they may be active in error by me and not needed. Any feedback is encouraged, I am a newbie.

VCDS Beta 14.7.2: 09-Cent. Elect., UDS Adaptation

Channel: (11)-Access control 2-SAD Komfort schliessen

Stored value: active

New value:

WorkShop Code (0-99999): 00066 Importer # (0-999): 790 Equipment # 00145

Do It! Go Back Add to Log

VCDS Beta 14.7.2: 09-Cent. Elect., UDS Adaptation

Channel: (12)-Access control 2-SAD Komfort oeffnen

Stored value: active
